SUMMARY

Python and AI Developer with experience in Machine Learning, NLP, and Generative AI-based application development. Skilled in backend development, API integration, and data processing using Python. Experienced in designing structured prompts, improving AI output accuracy, and building practical AI-powered solutions. Strong analytical thinking and problem-solving ability with a focus on developing efficient, reliable, and scalable software systems.

PROFESSIONAL EXPERIENCE

Junior Developer

Crescent Moon Technologies | Apr 2026 – Present

- Developed and maintained enterprise web applications and software solutions.
- Worked on API integrations, authentication systems, database operations, and backend development.
- Leveraged AI-assisted development tools to accelerate feature implementation and debugging.
- Participated in testing, deployment, application support, and performance optimization.

Prompt Engineering Intern

GrowAITech | 2 Months

- Designed and optimized prompts to improve the accuracy, consistency, and quality of AI-generated outputs.
- Worked with Generative AI models to create structured responses and automate workflows.
- Evaluated AI performance, identified edge cases, and refined prompts for enhanced results.
- Assisted in AI application testing, prompt validation, and output optimization.
- Collaborated with teams to improve AI solution effectiveness and user experience.

UI/UX Design Intern

GrowAITech | Jan 2026 – Apr 2026

- Designed user-centric interfaces and interactive prototypes using Figma.
- Created wireframes, user flows, and design systems for web and mobile applications.
- Collaborated with developers to improve usability, accessibility, and user experience.
- Applied UI/UX best practices to deliver intuitive and responsive designs.

SKILLS

- Technical: Python, JavaScript, HTML, CSS, React.js, Node.js, SQL, REST APIs
- AI & ML: Machine Learning, NLP, Prompt Engineering, Generative AI
- Tools: ChatGPT, Claude, Antigravity, Git, Postman, Figma
- Core Strengths: Problem-Solving, Critical Thinking, Team Collaboration, Attention to Detail

PROJECTS

Trolley Bill Payment App

Flutter-Based Grocery E-Commerce Application

- Developed a cross-platform e-commerce application using Flutter and Hive with barcode scanning and real-time cart calculation.
- Integrated authentication, Razorpay payment gateway, Telegram Bot API, and Google Sheets API for inventory synchronization and structured data management across platforms.

Tamil Semantic Analyzer

AI-Powered Sentiment Analysis System

- Developed a Tamil NLP-based sentiment analysis web application to analyze semantic meaning and emotional tone from Tamil text.
- Implemented text preprocessing, tokenization, and machine learning/NLP models for sentiment classification with bilingual (Tamil-English) support.

Intelligent Trading System

AI-Powered Algorithmic Trading Platform

- Developed a multi-market algorithmic trading system using Python, FastAPI, PostgreSQL, and Redis for automated execution.
- Engineered ensemble machine learning models (XGBoost, LightGBM, CatBoost, LSTM) with NLP-based sentiment analysis and advanced risk management for financial time-series forecasting.

MailForge – Enterprise Email Management Platform

React.js, Node.js, PostgreSQL, REST APIs

- Developed and deployed enterprise email management features.
- Worked on authentication, API integration, bug fixes, and deployment support.

EDUCATION

BE – Computer Science and Engineering (2022 – Present)

Velalar College of Engineering and Technology, Erode

CGPA: 7.61 HSC (2022) – 73.6% | SSLC (2020) – 91.3%

PUBLICATIONS

Real-Time AI-Driven Cross-Market Trading System for Retail Traders Using XGBoost-LightGBM Ensembles

IEEE (or more specifically: IEEE IATMSI 2026 — International Conference on, presented at Gwalior)

Real-time AI trading system using XGBoost-LightGBM ensembles and LSTM for cross-market signal generation. Presented at IEEE IATMSI 2026, Gwalior; published on IEEE Xplore.

ACHEIVEMENT

Prize Winner

PALS InnoWah Hackathon, IIT Madras

LEADERSHIP

- **Secretary** – Tech Crew
- **Core Executive Member** – Rotaract Club (2022–2023)

CERTIFICATES

Machine Learning Specialization

Coursera

UI/UX Design

Figma Essentials

Introduction to Internet of Things

NPTEL

Generative AI Applications

GrowAITech

Test Engineer

Infosys Foundation, Finishing School for Employability, ICT Academy
